# **Investment Thesis**

Veolia's strong establishment further elevated by the merger with Suez will solidify its competitive advantage

In early 2022, **Veolia and Suez finalized their merger agreement**, becoming the **biggest integrated resourcing company** in the world, paving the way for **operational & overhead synergies.** 

High barriers of entry and established **relations with municipals and corporates** protect **Veolia's standing as the biggest player** in the resourcing space.

Veolia strives to be a **top three player in every market** they are operational in, while continuously **adding new markets** to their portfolio.

**70%** of **Veolia's Revenue is indexed to inflation** providing the company with great **financial stability** especially in an uncertain economic environment.

The merger with Suez significantly increased the leverage ratio for Veolia 5%, however, as the company benefits from merger synergies, the ratio is expected to decrease to well below 5%.

In Velia's home and biggest market, Europe, infrastructure requirements are mostly met, limiting the amount of organic growth possible.

# **Company Overview**

# Operating business and a broadly networked management result in Veolia's stability and growth

#### **Company Description**

Veolia Environnement S.A. was founded in 1853 by an Imperial decree of Napoleon III and currently designs and provides water, waste and energy management

Headquartered in Aubervilliers, France and operating in 35 countries

Leading energy and water utility employer with nearly 220,000 workers

#### **Revenue Distribution (2021)**

| EUR m              | 2016    | 2017   | 2018   | 2019   | 2020    | 2021    |

# **Business Ecosystem**

Veolia website

W U T

Through it's services, Veolia is "Resourcing the world"

# **Business Strategy**

Veolia has been able to identify and deliver on key strategic initiatives to combat stagnation in a maturing industry

#### **Key Strategic Objectives**

Veolia is the biggest player in an **already mature industry**. These strategic initiatives will be vital to ensure growth nonetheless

By integrating **inflation-indexation** formulas into **70%** of their **revenue**, Veolia can profit from uncertain times

Through **high bargaining power** with municipal clients, Veolia can rely on **tariff increases to fuel growth** 

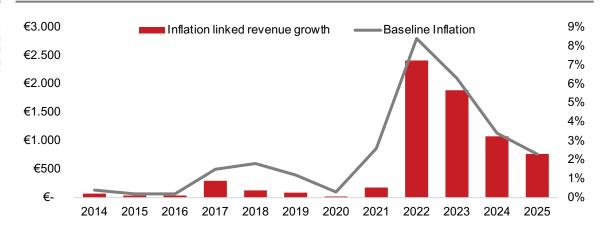

Due to **margin improvements** related to the Suez-deal, Veolia's **financial performance** is expected **to improve** 

A shift of focus on new **geographies** with priorities in the **APAC in MENA** region

A conservative but stable growth case with room for margin improvements

#### Strong Link between Revenue & Inflation (in mn)

#### **New Geographies**

Veolia set out to become a top three resourcing company in every country of operations.

In Q3 2022, Veolia signed a longterm contract for a waste management plant in Abu Dhabi. It is expected to generate 100 mn € in ARR.

# The Suez Merger

S

A gamechanger that will continue to define the future of Veolia for years to come

#### **General Overview of Transaction**

In 2021, Veolia acquired second largest competitor Suez for 12,8 bn €. After regulatory concerns were resolved through divesting some remedy assets, the full year 2022 will be the first consolidated

With a Suez holding market share of 2% and Veolia of 3%, the combined company will be the **biggest player in the resourcing space** with a combined **market share of 5%** 

The companies product portfolios are almost exact matches, however, the strong geographic footprint of Suez in the UK and Spain will add another layer of diversification into Veolia's portfolio

#### Synergy Delivery & Potential

Longterm targets: **EPS accreation of 40%** in 2024 with **efficiency gains** of more than **500 mn €** 

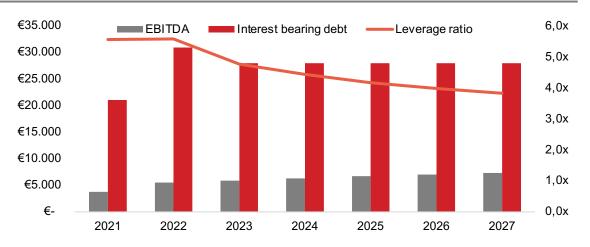

Q3 2022: Full year synergy targets already achieved with **98 mn € of savings** 

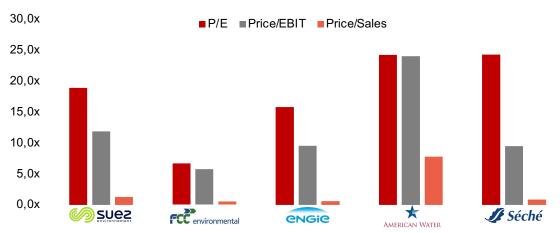

Q2 2022: First cost reductions on operational level

Q1 2022: Savings and cost synergies in overhead costs

#### Increased Leverage expected to decrease over the next Years (in mn)

#### **Benchmarking Confirms Reasonable Price for Acquisition**

# Market Overview I

The environmental services market is very fragmented with only few global players of Veolia's type

#### **Overview of the Market Participants**

#### **Global Multi-Service Companies**

- A global geographic footprint and an extensive range of services
- Chinese companies are also presented in al 3 sectors, although they are doing a lot of other things too
- Other 3 companies however are presented only in Water and Waste

#### **Global Specialists**

- Global specialists are companies that specialize in one of Veolia's business lines and have a worldwide geographic presence
- Major players in the energy market
- Global equipment manufacturers
- Oil and gas specialists

#### **Local/Regional Multi-Service** Companies

In some developing countries, private or public/private companies have a large local footprint and are the leading players in local markets where Veolia also operates

suez

**REMONDIS®** 

**VEOLIA** 

#### **Local or Regional Specialists**

- Geographic footprint limited to one country or region of the world
- They set the standard in their market, with a range of expert offerings positioned in specific business lines.
- This category remains the largest in the market

# **Trends & Drivers**

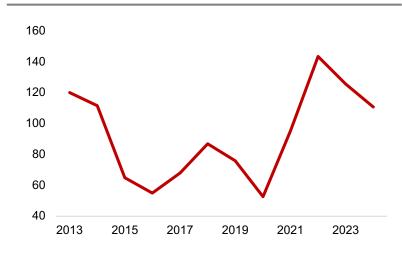

Market is influenced by global challenges and looks for new solutions to increase efficiency

#### **Current Market Trends driving Industry Growth**

# Population growth and increasing urbanization With new waves of people moving to cities, the demand for the utilities industry grows. 70% of world population will live in cities by 2050. Access to drinking water and sanitation systems Some 700 million people have no access to drinking water and over 2 billion have no access to sanitation systems. Digitalization The ability to innovate using new technologies and innovative processes is reflected in significant R&D spending.

#### **Energy Commodity Price Index (2010 = 100%)**

#### **Cost constraints**

Companies are encouraged to outsource water and waste management services to specialists due to cost constraints coupled with performance requirements.

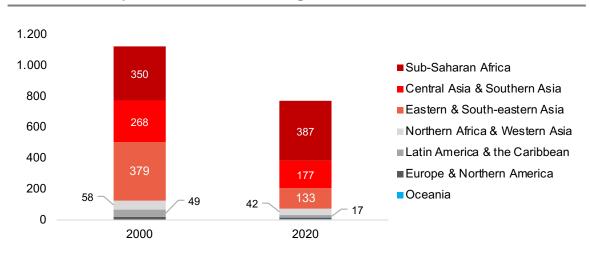

#### **Energy prices**

Significant fluctuations in prices, an exceptional rise in commodity prices in majority of countries in 2021.

#### Switch to renewable energy sources

New sources of energy influence the margins and supply chains.

#### **Number of People without Basic Drinking Water Services Worldwide**

# **Market Overview II**

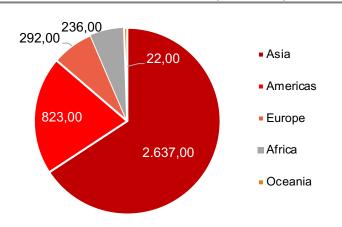

I

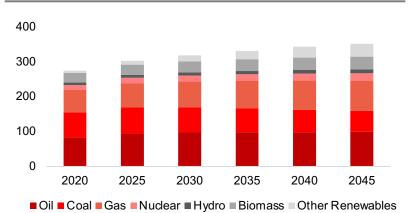

S

The continuously growing demand for limited resources is one of the main factors shaping the utility industry

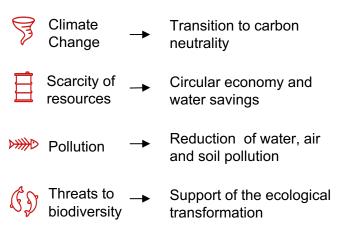

#### Water Withdrawals as of 2018 (in bn m<sup>3</sup>)

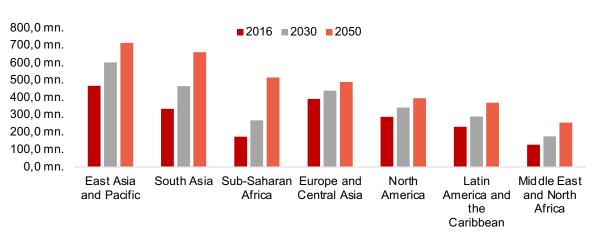

#### Primary Energy Demand Worldwide (in mn barrels)

#### **Global Challenges**

#### Projection of Waste Generation Worldwide, by Region (in mt)

#### **Porter's Five Forces**

Low threat of new market entrants due to Veolia's size and market's limits

Moderate opportunity of substitution in the waste and energy sectors, because of new energy sources and introduction of cradle-to-cradle concept, but not expected in the water

Because of Veolia's importance rather low bargaining power of clients

Not a lot of influence on Veolia due to its size and operations in three different industries

A lot of competitors in waste sector, less in water and energy, but very few in all of the businesses and such of a size

# **Multiples Valuation**

Benchmarking Veolia's EBITDA & EBIT margins confirms that Veolia is trading in value territory

#### **EBIDTA Regression** 18,00x AMERICAN WATER 16,00x **Essential** 14,00x **CLEANA**WAY Equity Value/EBITDA Multiple 12,00x **PENTAIR** 10,00x Ameren 8,00x SEVERN 6,00x **United**Utilities # Séché **CenterPoint** DTE 4,00x **VEOLIA** 2,00x renew 0.00x30% 0% 10% 20% 40% 50% 60% **EBITDA Margin**

#### **Peer Segment Conclusions**

The water segment enjoys the **highest margins** with a median of 52%. However, the regression line shows their margins are **already priced in** 

Waste management mostly has EBITDA margins between 20% and 30%, with most peers trading above the regression line

While having **the lowest margins**, energy peers trade significantly **below the regression line** and are therefore in **value territory** 

#### **Implied Share Price**

| Share price calculated via         | EV/EBITDA                | Share Price           |

| Share price calculated via  Median | <b>EV/EBIT</b><br>18.76x | Share Price<br>22.55€ |
|                                    |                          |                       |

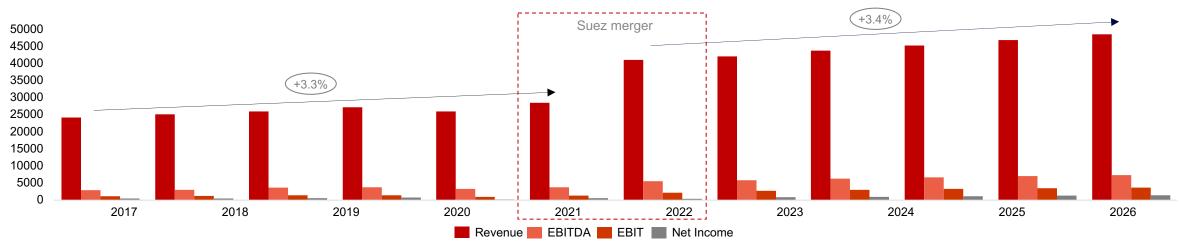

# **DCF Analysis**

Operating assumptions and revenue drivers lead to a healthy financial performance until 2027

#### **Key Forecasted Financials (in mn)**

#### **Operating Assumptions**

#### Margins:

The merger with Suez will spur EBITDA and EBIT for the next years, in total improving margins in the base case by around 1.7%.

#### **Net Income:**

Despite increases in costs, net income continues to increase at a stable rate in the coming years due to margin improvements and market growth.

#### **Demand:**

Macro trends such as increased recycling rates and higher water consumption will further increase demand for Veolia's offerings

#### **Suez Merger:**

Top line growth in FY2022 jumped significantly due to the merger, while smaller divestitures in the UK and France ensured anti-trust compliance.

#### Inflation:

With elevated levels of inflation, and 70% of Veolia's revenue being indexed, inflation makes a key factor in forecasting Veolia.

#### **Market Growth:**

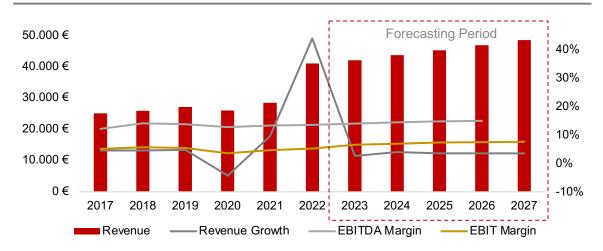

Especially regarding the waste segment, market growth with a CAGR between 6-8% is a key driver of future revenue.

# **DCF Analysis**

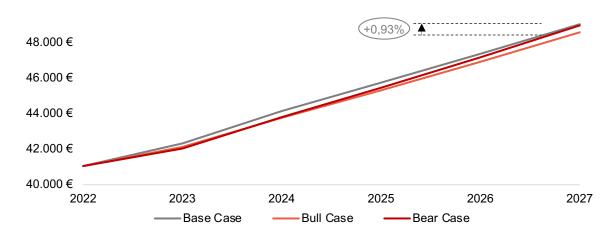

Stable revenue growth and improving margins lead to a share price of €30,26

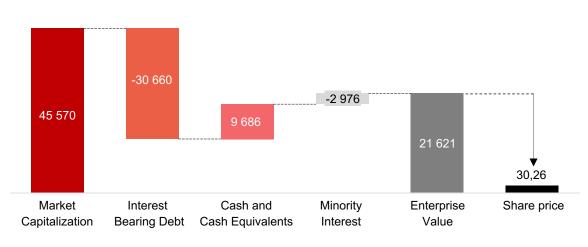

#### Revenue (in mn) and Margin Forecast for Base Case

#### Revenue (in mn) by Scenario

#### **Equity Bridge (in mn)**

#### **Valuation Assumptions**

# WACC (7.92%): Cost of Debt: 4.54%, Cost of Equity: 15.8%, Relevered Beta: 1.43 Terminal value assumption: Growth adjusted for expected inflation in Europe & United States: 2.20%

Conservative assumptions still lead to a buy in different scenarios and inflation cases

#### **Scenarios Overview**

DCF Model

**Optimistic:** Not indexed price increases equal 80% of inflation, new projects and synergies as planned, water revenue grows with historical average, low inflation

**Base Case:** Not indexed price increases equal 50% of inflation, new projects delayed, synergies slightly lower than expected

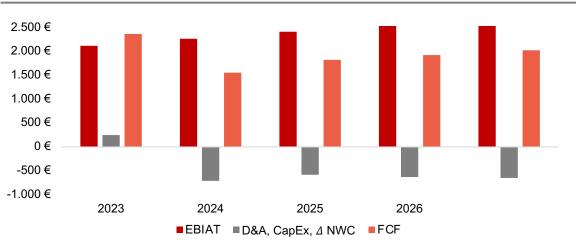

**Pessimistic:** Not indexed price increases equal 20% of inflation, synergies lower than expected, market growth low/insignificant

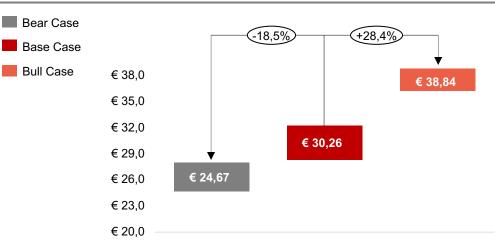

#### Sensitivity Analysis for Base Case (in EUR)

| Growth Rate | WACC  |       |       |       |       |  |  |  |
|-------------|-------|-------|-------|-------|-------|--|--|--|
|             | 8.92% | 8.42% | 7.92% | 7.54% | 7.00% |  |  |  |
| 1.80%       | 24.89 | 25.05 | 25.21 | 25.37 | 25.51 |  |  |  |
| 2.00%       | 27.29 | 27.45 | 27.61 | 27.78 | 27.92 |  |  |  |
| 2.20%       | 29.94 | 30.10 | 30.26 | 30.42 | 30.56 |  |  |  |
| 2.40%       | 32.87 | 33.02 | 33.18 | 33.35 | 33.49 |  |  |  |
| 2.60%       | 36.12 | 36.28 | 36.44 | 36.60 | 36.74 |  |  |  |

#### Free Cash Flow and CapEx (in mn)

#### **Target Price Range by Scenario and Inflation Forecast**

# **Conclusion**

Veolia provides for a safe but sound investment in a tumultuous and uncertain macro-economic environment

# Competitive Advantage

#### 3. Market leader

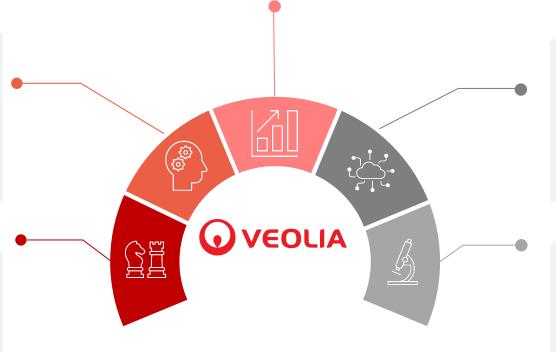

- TOP 3 of its business lines in all its key countries. (France, USA
- 5% market share worldwide, which is very fragmented
- Suez Acquisition

#### 2. Extensive experience

- 160 years of experience allow Veolia to base their technologies on years of practice.
- World's distribution network 48 countries
- Reputation
- Know-how

# **1. Strategic Acquisitions and partnerships**

- Generating synergies and growth (e.g. SUEZ acquisition)
- Orange Business Services Partnership (2022) – Supports Hubgrade with more than 25 types of expertise in digital, AI, IoT, data analytics and cloud

#### 4. Technology

Technologies are design to reduce operating costs and ensuring the optimization of the resources and efficient management of installations.

- Poses 2140 active patents in 2021
- Real time monitoring solutions (e.g. Hubgrade)
- Disruptive technologies.
- Auto-adaptive sequential sorting (TS2A)

#### 5. R&I strategy

3 research R&D Pillars:

- An Internal Research and innovation structure (4 research sites)
- An open innovation approach (VIA, Open playground) – strategic partnerships to collaborate and co-develop
- A global scale international network

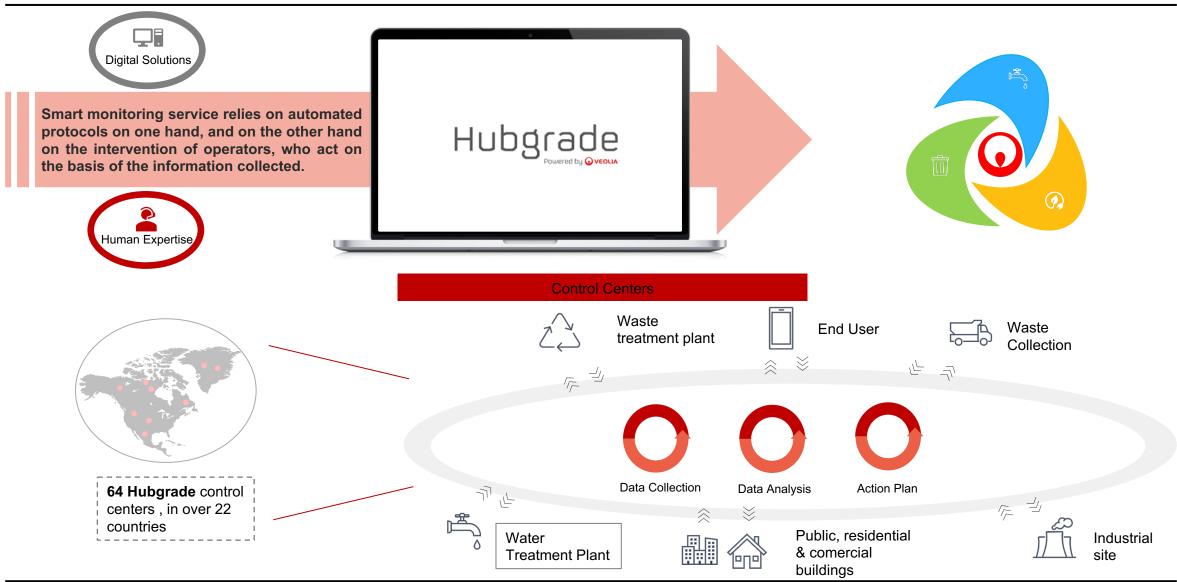

#### Value Chain

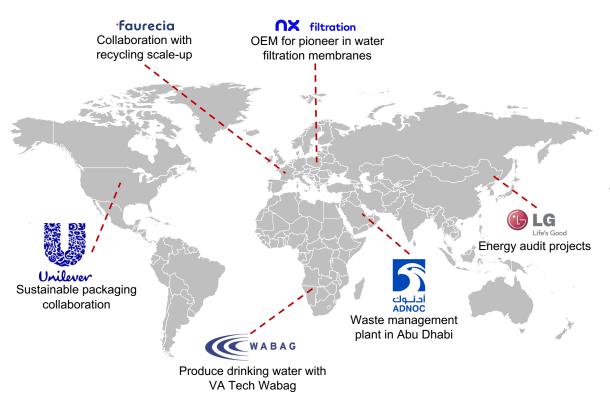

# Hubgrade

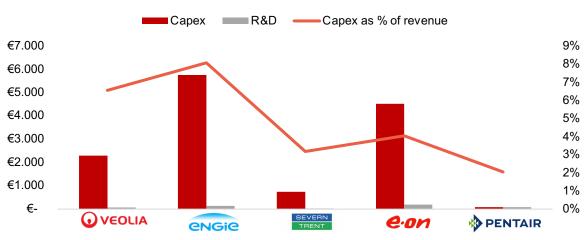

Partnerships & Research Capacity

#### **Selected Corporate Partnerships**

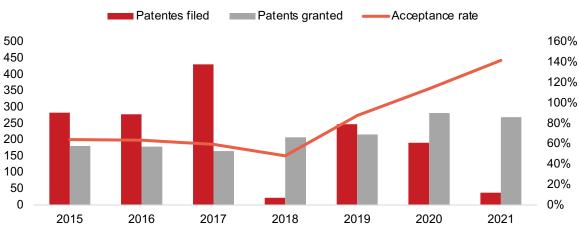

Through **partnerships and OEM relations** with established corporates as well as with start-ups, Veolia can leverage it's value chain and **benefit from technological advancements** in the industry while reducing R&D expenses.

# M&A – Appendix

# Suez Integration & Divestures

#### **Buying History – Integration of Suez**

Veolia and Suez are both global players in waste and water management

2012: First attempt failed due to antitrust concerns 2020: First offer to Engie for 29,9% Suez shares at 2.9 EURbn

Engie sold stake for 3.4 EURbn 2021: Final merger agreement with valuation at 12.8 EURbn

Shares of Veolia jumped over 9% and Suez went up by 7.8% that day

#### **Divestures – At very High Valuations**

Hazardous waste assets France

 Mobile water units and industrial water contracts in France

 Waste business of Suez's UK (€2.3bn at 16.9 times 2021 EBITDA)

#### **Forced to Divest - Limited Competition Concerns**

**CMA UK** required to sell 3 substantial parts of the merged business regarding **competition concerns** in **5 waste** markets and **2 water treatment** markets

Suez's UK waste management

Suez's UK industrial water operation and maintenance

Veolia's European mobile water

**Councils** and **customers** concerned about the **merger impact** on the **cost** and **quality** of the services they receive. Taxpayers and businesses would have been left to cover any increase in cost.

#### **Consequences of Merger and Divestment**

- VIE remains a major player in the UK waste management market
- Divestments bring the Group's debt leverage significantly lower
- Now in the TOP 3 of its businesses in all its key countries including the US

Water Services : #1 WW - #1 EU - #3 US

Water Technologies : #1 WW

Solid Waste :

#1 FR - #1 UK - #2 GER - #1 AUS

Hazardous Waste: #1 EU - #3 US

# Risks – Appendix

#### Risk Matrix

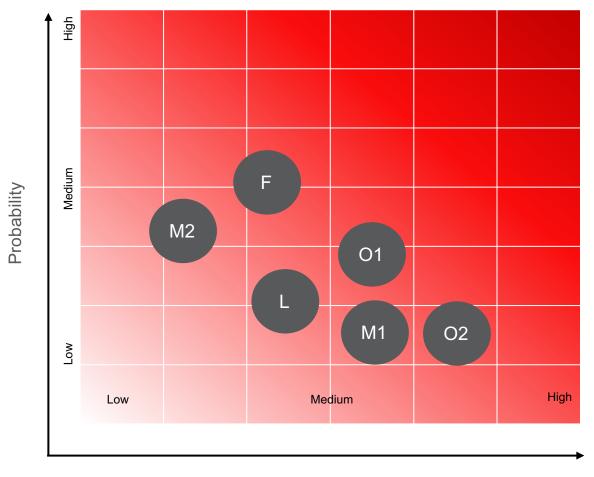

Impact

F-Financial O-Operational, M-Market, L-Legislative

# **SWOT – Appendix**

Strengths and Weaknesses

#### **STRENGTHS**

- Established relations with corporates and municipals
- Inflation indexation policies protect the company from inflationary environments
- Interest hedges ensure that financial stability remains unaffected by interest rate hikes
- The company exceeds in diversification with regards to product portfolio and geography

#### **OPPORTUNITIES**

- New markets & geographies especially in MENA region
- Suez related synergies and margin improvements
- Increased regulation regarding water treatment could drive demand
- Benefits from technological advancments in the industry via their OEM partners

- High leverage ratio dampens bottom line to some extend
- Mature industry with low growth rates
- Lack of integration of entire value chain and therefor depended on external manufacturers

- Falling behind in R&D efforts could lead to losing market share
- Decreased demand for environmental services due to the global macroeconomic environment

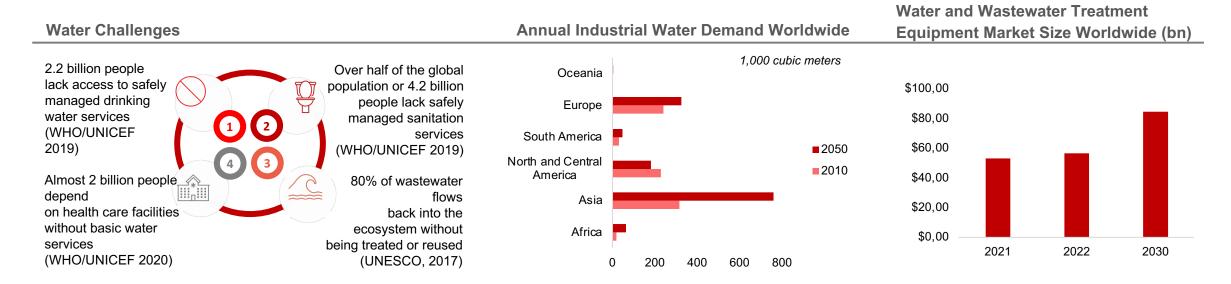

#### **WEAKNESSES**

**THREATS** 

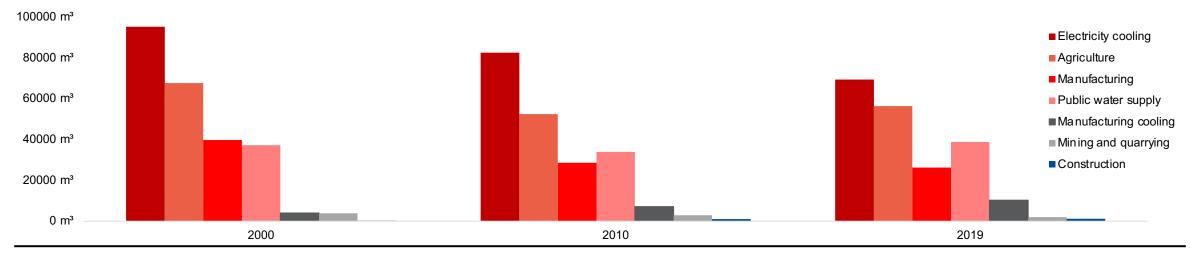

# Industry – Appendix

# W U T I S

#### Water Market Overview

#### Water Abstraction by Economic Sector in the 27 EU Member States (in mn)

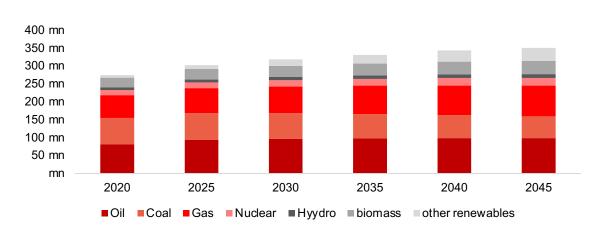

# **Energy Market Overview**

#### Primary Energy Demand Worldwide (mn barrels of oil equivalent per day)

#### **Global Energy Perspectives**

by 2050

1.7 grad C by 2100

High volatility on energy markets due to geopolitical tensions and demand, while the target is< decarbonisation

Energy mix – electricity and enabling

hydrogen and synfuels amount to 50%

Global warming is expected to reach

Oil – between 2024 and 2027

Demand peaks:

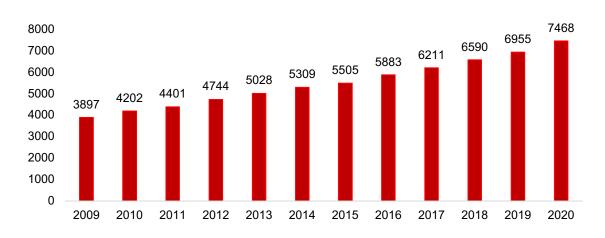

- Coal 2013, rebound in 2021, but expected to decrease
- Gas toward 2035 tendency to grow to 10-20%

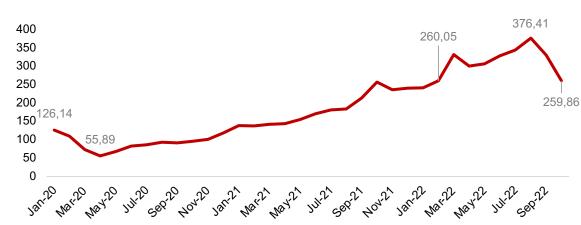

Total investments across energy sectors are expected to increase by more than 4% per annum and mostly in non-fossil and decarbonisation technologies

#### **Production of Renewable Energy Worldwide (TWh)**

**Waste Treatment Distribution in the EU (by recovery types)** 

## Porter's 5 Forces

#### Threat of new entrants

Markets is very fragmented and often locally limited (-) Very high economies of scale, new firms lack competitive pricing and high efficiency (-) Low probability of customers' wish to change their often long-termed partners (-)

#### **LOW THREAT**

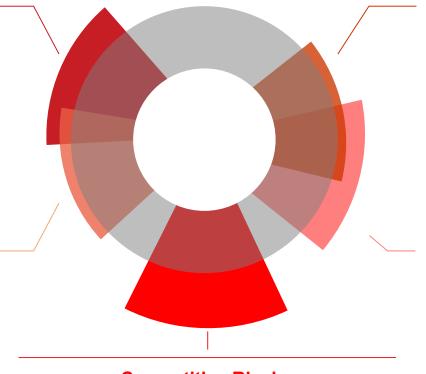

#### Threat of substitution

Low possibility to substitute water service (-) Possibility of new energy sources' discovery (+) Possible introduction of cradle-to-cradle

concept (+)

High switching costs (-)

#### **MODERATE THREAT**

## **Competitive Rivalry**

Low number of the companies of such a scale in the industry, emphasizing all the three business lines and using a synergy effects (-)

In the waste area a lot of competitors of different size (+) Due to utilities market's specifics, it is rather complicated to lose the market the company is already on (-)

#### MODERATE DEGREE OF COMPETITION

## **Bargaining Power of Buyers**

Veolia's importance and global influence gives the company an opportunity to be more independent from the clients (-)

LOW

## **Bargaining Power of Suppliers**

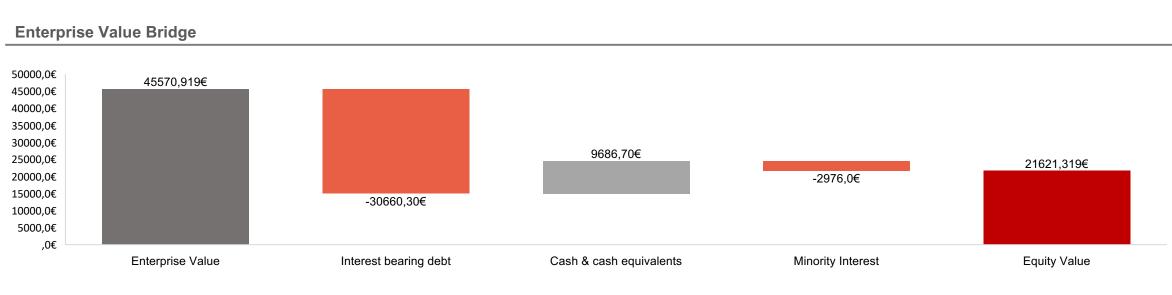

Low possibility of suppliers to influence Veolia's business due to its size and synergy effect of the business (-)

**LOW**

## **Disclaimer**

This document is being made available by WUTIS Trading and Investment Society, acting through its society ("WUTIS"), for information purposes only and for the sole and exclusive use of the addressee in connection with the matter or possible transaction to which this document relates. This document is incomplete without reference to, and should be assessed solely in conjunction with, the oral briefing provided by WUTIS.

This document is strictly confidential and remains the property of WUTIS. You agree that you shall only use this document for the purpose of evaluating and considering the matter or possible transaction to which this document relates. This document may not be distributed, published, reproduced, or disclosed, in whole or in part, to any other person, nor relied upon by you or any other person, nor used for any other purpose at any time, in each case without the prior written consent of WUTIS.

This document does not constitute nor does it form part of an offer to sell or purchase, or the solicitation of an offer to sell or purchase, any securities or any of the businesses or assets described herein or an offer or recommendation to enter into any transaction described herein nor does this document constitute an offer or commitment to provide, arrange or underwrite any financing. You are responsible for making your own independent investigation and appraisal of the risks, benefits, appropriateness and suitability of any transaction or matter contemplated by this document and WUTIS is not making any recommendation (personal or otherwise) or giving any investment advice and will have no liability with respect thereto. The decision to proceed with any transaction or action contemplated by this document must be made by you in the light of your own commercial assessments and WUTIS will not be responsible for such assessments.

Neither WUTIS nor any of its subsidiaries or affiliates, nor any of their respective officers, directors, employees or agents (WUTIS together with such persons being the "WUTIS Group") accepts any liability whatsoever for any direct, indirect or consequential losses (in contract, tort or otherwise) arising from the use of this document or its contents or any reliance on the information contained herein. WUTIS Group is not responsible for any specialist advice, including legal, regulatory, accounting, model accounting, tax, actuarial or other advice.

This document was prepared on the basis of information and data, obtained from publicly available sources and, where applicable, from you and/or any other entity that may be involved in any transaction or matter contemplated by this document (and/or any of your or the aforementioned entities' affiliates), in each case prior to or on the date hereof. The information in this document has not been independently verified by WUTIS. WUTIS has relied on any information provided by you or from third party or public sources as complete, true, fair, accurate and not misleading. With respect to any financial or operating forecasts and analyses provided to it, WUTIS has assumed that they are achievable and have been reasonably and properly prepared on bases reflecting the best currently available information, estimates and judgments as to the future financial performance of the entity(ies) to which they relate and that such forecasts or analyses would be realised in the amounts and time periods contemplated thereby. No member of the WUTIS Group, makes any warranty or representation, express or implied, as to the accuracy, completeness or reasonableness of the information (including projections and assumptions) contained in this document whether obtained from or based upon third party or public sources or otherwise.

This document is given as at the date hereof, may not be final, is based on information available to WUTIS as at the date hereof, is subject to any assumptions set out therein and is subject to change without notice. Accordingly, this document may be based on (a) data and information that may no longer be current and (b) estimates that may involve highly subjective assessments. It should be understood that subsequent developments may affect this document and the WUTIS Group does not undertake any obligation to provide any additional information or to update any of the information or the conclusions contained herein or to correct any inaccuracies which may become apparent. Any data or information regarding, or based on, past performance is no indication of future performance.

Members of the WUTIS Group are involved in a wide range of commercial banking, investment banking and other activities out of which conflicting interests or duties may arise. In the ordinary course of its business, the WUTIS Group may provide services to any other entity or person whether or not a member of the same group as you (a "Third Party"), engage in any transaction (whether on its own account, on behalf of any Third Party or otherwise, and including any transaction or matter contemplated by this document), notwithstanding that such services, transactions or actions may be adverse to you or any member of your group, and the WUTIS Group may retain for its own benefit any related remuneration or profit. The WUTIS Group operates in accordance with a conflicts of interest policy which identifies conflicts of interest it faces in the ordinary course of its business, and establishes organisational and procedural measures to manage those conflicts where it is reasonably able to do so. Neither WUTIS nor any other part of the WUTIS Group shall have any duty to disclose to you or utilise for your benefit any non-public information acquired in the course of providing services to any other person, engaging in any transaction (on its own account or otherwise) or otherwise carrying on its business. WUTIS' research analysts and research departments are independent and are subject to certain regulations and internal policies. WUTIS research analysts may hold opinions and make statements or investment recommendations and/or publish research reports with respect to any company referred to herein, the transactions contemplated herein or any person or entity involved therein or related thereto that differ from or are inconsistent with the views or advice communicated by WUTIS.
